

## **LEARNING OBJECTIVES**

**4-16-19**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- explain the role and limitations of supplemental breast ultrasound screening for patients with dense breasts.
- discuss the effect of pregnancy on short-term breast cancer risk.
- advise their patients on recent FDA advisories related to breast cancer screening and breast implants.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with breast cancer and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens
