

## **LEARNING OBJECTIVES**

**6-11-19**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- recognize the importance of non-pharmacologic treatments for hypertension.
- recognize differences in antihypertensive agents.
- use total cardiovascular risk to gauge need for treatment.
- analyze new recommendations for hypertensive treatment.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with hypertension and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
