

LEARNING OBJECTIVES

10-13-20

DESIRED OUTCOMES: At the end of the activity, attendees will be able to:

- determine the epidemiology of long-COVID-19 infection.
- recognize the signs and symptoms of long-COVID syndrome.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with long COVID and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
